FALL/WINTER 2021 CHARTER MARKET UPDATE

STRONGEST SELLER'S MARKET SINCE 2006

Commercial aircraft charters are up an average of 30% for 2021 due to health and pet concerns, as well as plane inventory constraints with much higher demand. Forecast to continue through at least Spring 2022. It is highly suggested to book sooner rather than later for these reasons. Even if you did not book with us, we are happy to help with any travel questions. Thank you
